Police Department Update

As you may already know Kathy Dionne, my executive secretary, retired on September 25th and I have named Sally Stewart as her replacement. Sally has been working as the department's parking coordinator and manager of the train station for the last two years. Welcome aboard Sally!

The communications tower project is moving along as we had a site walk with the planning board on September 30th and have a public hearing scheduled for October 19th. We will hopefully get approval for the project at that meeting also.

Fire Department Update

Things are changing in the Fire Department! The new Wells Fire Substation is moving along very well. The outside landscaping has been completed with four new Maple trees added and the property was all raked out and seeded for grass. The outside pavement has been completed and much of the work has moved to the inside with much of the interior walls added. With any luck we will be moving in sometime in late November or early December!

The Department will also be conducting interviews next week for a new additional firefighter. Once the interview process is completed each of the candidates will be asked to perform a physical agility test followed by a follow up interview for the top few candidates with the Fire Chief. We are excited to start our newest firefighter in November!
